

Gleaning – Distribution/Drivers:

What happens to gleaned produce after the harvesters pick it from the fields? We distribute it around the island! Help us deliver and see for yourself the happy faces of those that are benefiting from the gleaned produce.

- Tasks:
 - Each week we will announce the farm and type of produce that will be gleaned. The amount we get often varies & distribution will be dependent on quantity.
 - IGI Staff will be available for any questions or concerns.
- Skills:
 - Some directional knowledge of the island, but you don't have to know every place – we can help!
