

Gleaning – Washing & Processing:

On various occasions we will wash and/or process produce that we glean. Sometimes it will simply be washing carrots and then distributing them afterward. Other times we will work with commercial kitchens to make soups or meals for community donation. These events typically run 1-3 hours.

- Tasks:
 - Washing tubs of produce
 - Chopping and processing produce using a range of kitchen utensils.
- Skills:
 - Have a passion for cooking or just a desire to help others
