

Greenhouse Help:

IGI has a hydroponic and aquaponic greenhouse at Thimble Farm in Vineyard Haven. Leafy greens and strawberries are grown year-round in waist height, easily accessible tables. We are always looking for extra hands to assist in weekly harvesting and the daily workings. Come experience a less physically demanding, low-impact form of gardening while surrounded by lush plant growth.

- Tasks:
 - Larger scale harvesting is typically on Wednesdays from 8:30/9 – noon
 - Smaller harvesting & other tasks happen throughout the week and can be directly coordinated with our greenhouse manager.
- Skills:
 - Basic gardening knowledge is a plus.
 - We welcome all skill levels.
